

Personal presentation

Luca Chianfoni
PHOTOGRAPHY

About me

My name is Luca Chiandoni, and I am a freelance photographer based in northern Italy.

In the dynamic world of events, capturing the essence and energy of each moment is essential to instill the uniqueness of an experience to the audience.

It's not just about documentation.

Every event (even the most boring one at first sight) is an adventure, built on human connections, and deserves to be narrated through evocative images that last forever.

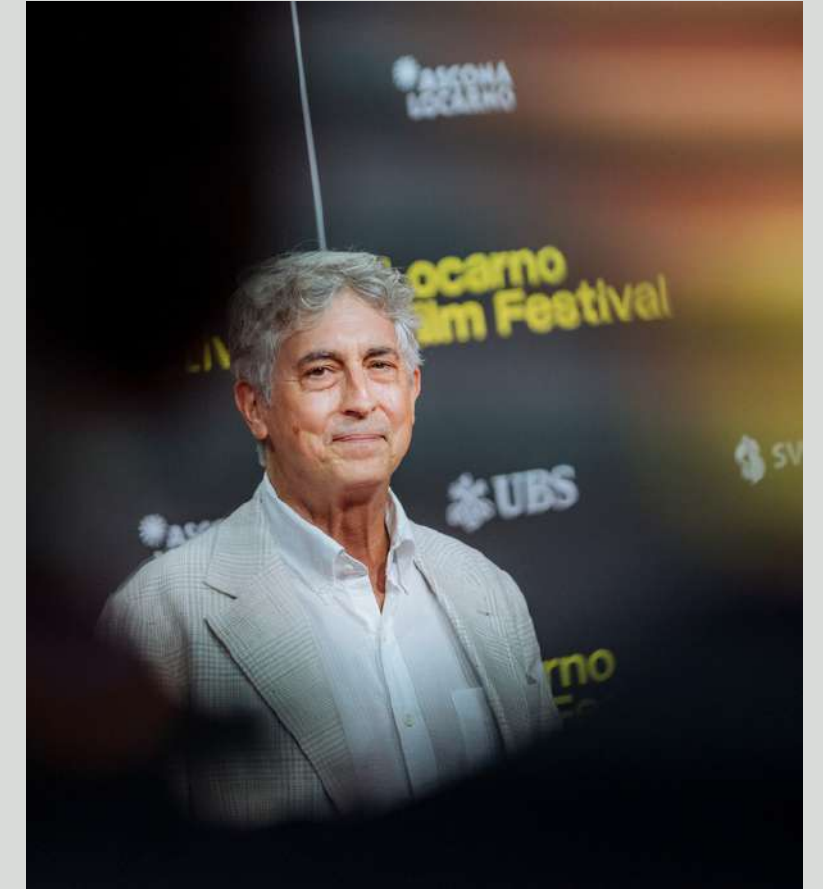

Through my photographic style, I try to engage and convey the empathy I feel for the subjects of my shots, prioritizing genuine emotions over staged poses.

Services

I am specialized in reportage of cultural, music and cinematic events and festival collaborating with events and web agencies.

I also work for Corporate events, trade fairs and industry workshops.

Product photography, interiors and corporate portraits to renew personal branding and corporate communication.

I like to be as discreet as possible, capturing both big moments and intimatest details;
every moment becomes a memory and deserves to be valued.

I am a very curious person and I try to constantly dedicate time learning and experimenting in a profession that allows me to express deep and complex feelings.
